CENTRAL EAST COMMUNITY CARE ACCESS CENTRE –CENTRAL EAST REGION

Outstanding care- every person, every day

Posting # CE-122-09-CE

Date Posted:	January 29, 2010
Job Title:	Long-term Care Home (LTCH) Outreach Nurse Practitioner
Job Status:	2 Full-time positions – May consider part-time and job share
Reports To:	Nurse Practitioner, Clinical Director
Program:	CECCAC NP LTCH Outreach Team
Source of Funding:	Central East LHIN
Available:	Immediately
Salary Range:	\$40.69 per hour - \$50.87 per hour (37.5 hours/wk)

This leading-edge NP role offers an exceptional opportunity for autonomy and respect from health care providers who are enthusiastic, grateful and supportive of your role. This is your exclusive opportunity to join a newly-created Nurse Practitioner-led team that provides acute episodic care to residents in long-term care facilities and contributes to their quality of life by averting resident transfers to emergency departments and reducing hospital admissions.

*Our NP team will provide **NP mentorship and gerontology support** for those who don't have the experience working within this population. If you have a car and the passion to care for our elderly, apply for this unique NP role.*

We have 2 full-time Nurse Practitioner positions to fill. You can choose to practice either in the beautiful Lindsay and Peterborough region, or practice in the towns that hug the Lake Ontario shoreline and East 401 corridors (East Oshawa, Courtice, Bowmanville, and Newcastle). Your home base will be the CECCAC offices in either Peterborough/Lindsay or Whitby.

Each Nurse Practitioner will be responsible for a number of LTCHs within their specified geographic area, and will work with residents and long-term care staff to provide timely access to assessments and treatments for acute episodic and semi-urgent conditions and injuries to increase the care provided within the long-term care home and reduce the need

for hospital transfers. The successful candidates will be responsible for developing collaborative partnerships with other LTCH Outreach NPs in Central East, physicians in both the long-term care homes and the hospital emergency departments, GEM nurses and LTCH staff.

By joining the Central East team, you will have the opportunity to work within the full scope of practice and will autonomously diagnose, order and interpret diagnostic tests and prescribe pharmaceuticals within the NP legislated scope of practice. Your work will improve the quality of life for long-term care residents by caring for them in the most appropriate place – their home.

Qualifications:

- Current RN(EC) registration with the College of Nurses of Ontario (with a specialty certificate in Primary Health Care or Adult)
- Minimum of 3 years nursing RN experience; emergency department and/or geriatric experience an asset;
- A passion for making a difference in the lives of our long-term care residents.

Consideration will be given to candidates for NP certification with strong clinical expertise.

Work Environment and Hours of Work:

- Monday through Friday – 37.5 hours per week; will include evenings, weekends and some on-call
- Travel throughout your designated geographic area; a valid Ontario driver's license and access to a reliable vehicle required.

CECCAC is a Hospitals of Ontario Pension Plan (HOOPP) employer and offers competitive benefits along with a generous vacation policy

Apply in Writing to: hrinfo@ce.ccac-ont.ca, stating in the subject line the posting # CE-122-09-CE. Please note, applications will be received until the positions have been filled.
